

ONESPAWORLD

AT SEA. ON LAND.

– The Global Health and Wellness Company –

INVESTOR PRESENTATION | MAY 2022

DISCLOSURE & FORWARD LOOKING STATEMENTS

Forward-Looking Statements

This Investor Presentation includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended and the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. The expectations, estimates, and projections of the Company may differ from its actual results and consequently, you should not rely on these forward-looking statements as predictions of future events. Words such as “expect,” “estimate,” “project,” “budget,” “forecast,” “anticipate,” “intend,” “plan,” “may,” “might,” “project,” “possible,” “would,” “will,” “could,” “should,” “believe,” “predict,” “potential,” “continue,” or the negative or other variations thereof and similar expressions are intended to identify such forward-looking statements. These forward-looking statements include, without limitation, expectations with respect to future performance of the Company, including projected financial information (which is not audited or reviewed by the Company’s auditors), and the future plans, operations and opportunities for the Company and other statements that are not historical facts. These statements are based on the current expectations and beliefs of the Company’s management concerning future developments and their potential effects on us taking into account information currently available to us and are not predictions of actual performance. There can be no assurances that future developments affecting us will be those that we have anticipated. These forward-looking statements involve significant risks and uncertainties that could cause the actual results to differ materially from the expected results. Factors that may cause such differences include, but are not limited to: the demand for the Company’s services together with the possibility that the Company may be adversely affected by other economic, business, and/or competitive factors or changes in the business environment in which the Company operates; changes in consumer preferences or the market for the Company’s services; changes in applicable laws or regulations; the availability of competition for opportunities for expansion of the Company’s business; difficulties of managing growth profitably; the loss of one or more members of the Company’s management team; and other risks and uncertainties described or incorporated by reference in the Registration Statement and the Company’s reports (including all amendments to those reports) filed from time to time with the SEC, including the Company’s most recent Annual Report on Form 10-KA for the year ended December 31, 2020 and the Company’s most recent Quarterly Report on Form 10-Q for the quarter ended September 30, 2021.. The Company cautions that the foregoing list of factors is not exclusive. You should not place undue reliance upon any forward-looking statements, which speak only as of the date made. Should one or more of these risks or uncertainties materialize, they could cause our actual results to differ materially from the forward-looking statements. The Company does not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in its expectations or any change in events, conditions, or circumstances on which any such statement is based or otherwise, except as required by law. These forward-looking statements should not be relied upon as representing the Company’s assessments as of any date subsequent to the date of this communication.

Use of Projections

This Investor Presentation contains financial forecasts, including with respect to estimated revenues, net income, Adjusted Net Income, EBITDA, Adjusted EBITDA, Adjusted EBITDA Margin, Unlevered After-Tax Free Cash Flow, Levered After-Tax Free Cash Flow and Unlevered After-Tax Free Cash Flow Conversion. OSW's independent auditors did not audit, review, compile, or perform any procedures with respect to the projections for the purpose of their inclusion in this Investor Presentation, and accordingly, did not express an opinion or provide any other form of assurance with respect thereto for the purpose of this Investor Presentation. These projections should not be relied upon as being necessarily indicative of future results. In this Investor Presentation, certain of the above-mentioned estimated information has been repeated (subject to the qualifications presented herein), for purposes of providing comparisons with historical data. The assumptions and estimates underlying the prospective financial information are inherently uncertain and are subject to a wide variety of significant business, economic and competitive risks and uncertainties that could cause actual results to differ materially from those contained in the prospective financial information. Accordingly, there can be no assurance that the prospective results are indicative of the future performance of OSW or that actual results will not differ materially from those presented in the prospective financial information. Inclusion of the prospective financial information in this Investor Presentation should not be regarded as a representation by any person that the results contained in the prospective financial information will be achieved.

Use of Non-GAAP Financial Measures

In addition to financial information prepared in accordance with generally accepted accounting principles in the United States ("GAAP"), this Investor Presentation includes certain non-GAAP financial measures, such as EBITDA, Adjusted EBITDA, Adjusted Net Income, Unlevered After-Tax Free Cash Flow, Levered After-Tax Free Cash Flow and Unlevered After-Tax Free Cash Flow Conversion, which may not be directly comparable to similarly titled measures of other companies. OSW believes that the presentation of non-GAAP measures provides information that is useful to investors as it indicates more clearly the ability of OSW to meet capital expenditure and working capital requirements and provides an additional tool for investors to use in evaluating ongoing operating results and trends. These non-GAAP financial measures are in addition to, and not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP. There are certain limitations related to the use of these non-GAAP financial measures versus their nearest GAAP equivalents. For example, other companies may calculate non-GAAP financial measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparisons with other companies. Please see our most recent Form 10-K/A for the year ended December 31, 2020 for further details on how we define these non-GAAP financial measures.

Industry and Market Data

In this Investor Presentation, OSW relies on and refers to information and statistics regarding market shares in the sectors in which it competes and other industry data. OSW obtained this information and statistics from third-party sources believed to be reliable, including reports by market research firms. OSW has supplemented this information where necessary with information from discussions with its customers and its own internal estimates, taking into account publicly available information about other industry participants and its management's best view as to information that is not publicly available. OSW has not independently verified the accuracy or completeness of any such third-party information.

KEY INVESTMENT HIGHLIGHTS

INDUSTRY LEADER

- 90+% outsourced spa market share on cruise ships
- Nearly 20x larger than nearest maritime competitor
- ~20M annual captive audience

MEGA TRENDS

- 20+ consecutive years of global passenger growth
- Strong population and demographic trends
- Emphasis on health, wellness and luxury lifestyles

COMPLEX MODEL

- Robust infrastructure and global network
- Not easily replicated
- Staggered contracts with cruise line partners

PREDICTABLE GROWTH

- Cruise capacity and occupancy is highly visible
- Published global booking data
- Multi-year contracts include new ships during term

ASIA EXPANSION

- Well-positioned in rapidly expanding Asian market
- Young and burgeoning middle class
- Cruising an increasing popular lifestyle trend

FCF & ASSET LIGHT

- ~90% after-tax free cash flow to Adj. EBITDA¹ conversion
- Asset light with minimal capex
- Cruise lines fund spa build-out and maintenance

ONE SPA WORLD

AT SEA. ON LAND.

1. Please see our most recent Form 10-K/A for the year ended December 31, 2020 for further details on how we define Adjusted EBITDA.

SAILING HAS RETURNED & ONESPAWORLD IS READY

“The first quarter saw continued growth across key operating metrics including: pre-booking percent of service revenue; average guest spend; average service spend per guest; and service frequency per guests, all of which achieved growth above the 2019 first quarter– the most recent period of normal operations.”

“We expect the continued increased scaling of our cruise ship operations to generate positive quarterly cash flow from operations beginning in the second quarter of fiscal 2022 and continuing quarterly thereafter and for the full fiscal year.”

ONESPAWORLD

AT SEA. ON LAND.

FIRST QUARTER 2022 ACCOMPLISHMENTS

Net Revenues of \$87.7 million up significantly from Q1 2021 and increased from Q4 2022 despite disruption from Omicron variant early in period

Delivered fifth consecutive quarter of sequential revenue growth

Ended the period with health and wellness centers on 170 ships, of which 127 had resumed voyages and introduced five new builds

Welcomed back 2,369 cruise ship personnel on vessels at quarter end for actual and anticipated voyages

Expects all contracted ships to return to service by the end of Q3
Expansion in 2022 includes 12 new ship builds inclusive of five that opened in Q1

Ended first quarter with 51 destination resort spas of which 48 were open and operating
Expects to have 52 destination resort spas open and operating at year end

Cash Burn Rate of \$1.9 million was better than guidance for cash burn rate between \$2.0 - \$3.0 million

Ends First Quarter with Total Liquidity of \$44 Million

Many large cruise lines are reporting 2022 bookings and pricing ahead of record 2019 levels

CDC announced retirement of its Conditional Sale Order in January 2022

Vessels with 98% of crew and 95% of passengers vaccinated have fewer requirements

Per our 2021 survey, 93% of OSW staff to plan return to work with 97% being vaccinated

Onboard Initiatives Focus on Improving Guest Spend and Utilization

- Solution Sales training to drive higher retail conversion
- Cross promotion and rebooking to improve utilization
- Skin Lab technology to promote BIOTEC facials
- Facial Add-on Menu to increase spend without adding to treatment time
- Spring Break and Teen Menu targets families and teen audience during vacation periods

SAILING HAS RETURNED & ONESPAWORLD IS READY

While navigating the pandemic and maintaining a strong cash and liquidity position, the flawless execution of our return to sailing fueled positive adjusted EBITDA in the Q4 2021, and growth across all key operating metrics as compared to Q4 2019, the most recent comparable period of normal operations

ONESPAWORLD

AT SEA. ON LAND.

FISCAL YEAR 2021 ACCOMPLISHMENTS

Record demand by on-board guests for OSW services

Key operating metrics compared favorably in the fourth quarter to 2019

Highest ever penetration rate of overall cruise ship guests serviced

Pre-bookings and average guest spend handily exceeded 2019 levels

London Wellness Academy reopened in Q3 2021
Welcomed back 2,200 cruise ship personnel

118 of 170 partner ships, returned to service at year end 2021;

48 of 52 destination resort spas open at year end 2021 and experiencing record demand

Total liquidity of \$46M at year end 2021

Safety & Technology

- Safety and guest experience is of utmost importance
- Investments in technology, training, and digital content / engagement for new service requirements

Collaboration & Engagement

- Engage cruise lines on initiatives to drive onboard revenue
- Accelerate pre-bookings, average spend and digital engagement

ONESPAWORLD, THE PREEMINENT GLOBAL HEALTH AND WELLNESS SERVICES COMPANY

ONESPAWORLD

AT SEA. ON LAND.

Our Focus on People

We believe how we manage our relationships with our employees, with the staff and guests of our cruise and destination resort partners, with the teams of our suppliers, and with the communities where we operate is fundamental to the success of our operations. And we believe our leadership team's accountability to our employees and our shareholders is critically important to our business. As the pre-eminent global operator of health and wellness services onboard cruise ships and destination resorts, our people are essential to the performance of our operations, the long-term success of our Company and the value we deliver to our shareholders. Our thousands of highly trained and resourced staff, guided by our corporate team, are core to that performance and success, as they provide extraordinary personal care experiences to millions of our cruise ship and destination resort partners' guests.

The unquantifiable adverse impact of the COVID-19 pandemic and our gradual ongoing return to service has evidenced the critical importance of our people across every aspect of our business. Throughout the COVID-19 pandemic, we have focused first and foremost on the health and safety of our employees. At the onset of the pandemic, we had over 3,220 of our staff serving aboard 170 cruise ships operating around the world. Upon the cessation of virtually all cruise ship operations in March 2020, we coordinated immediately with our cruise line partners to return every member of our shipboard staff to their home in one of 89 countries around the world in whatever means and at whatever cost required to do so. We are grateful to our cruise line partners for their caring for our staff as if their own during this time of threat to the safety and security of our people and theirs. Since our cruise line partners began returning their cruise ships to operation in September 2020, over 2,500 of our pre-pandemic staff have returned to us, who now serve on or are preparing to serve on 170 operating ships. We expect to have over 80% of our pre-pandemic staff return to service on 178 operating ships by year end. Again, evidence of our commitment to the welfare and wellbeing of our people, and its impact on our Company's success and the value we deliver to our shareholders.

With the onset of yet another unforeseeable global crisis, we have mobilized our corporate and onboard teams to support our staff impacted by the hostilities in Ukraine. We have enabled our Ukrainian staff who have returned to service to elect to remain onboard, or to be repatriated to their homes at our cost through a gateway city of their choosing. And we have contacted all Ukrainian members of our staff who have not yet returned to service, offering to promptly transport them to the safety of our shipboard facilities.

As evidenced by these commitments and initiatives in support of our people, we continue to imagine, develop and undertake strategies, policies and procedures across our Company, including programs to increase employee diversity, ensure a respectful workplace, and invest in our communities, in our ongoing investment to advance the interests of all of our stakeholders.

ONESPAWORLD

AT SEA. ON LAND.
