

ONESPAWORLD

AT SEA. ON LAND.

– The Global Health and Wellness Company –

INVESTOR PRESENTATION | August 2023

DISCLOSURE & FORWARD- LOOKING STATEMENTS

Forward-Looking Statements

This Investor Presentation includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended and the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. The expectations, estimates, and projections of the Company may differ from its actual results and consequently, you should not rely on these forward-looking statements as predictions of future events. Words such as “expect,” “estimate,” “project,” “budget,” “forecast,” “anticipate,” “intend,” “plan,” “may,” “might,” “project,” “possible,” “would,” “will,” “could,” “should,” “believe,” “predict,” “potential,” “continue,” or the negative or other variations thereof and similar expressions are intended to identify such forward-looking statements. These forward-looking statements include, without limitation, expectations with respect to future performance of the Company, including projected financial information (which is not audited or reviewed by the Company’s auditors), and the future plans, operations and opportunities for the Company and other statements that are not historical facts. These statements are based on the current expectations and beliefs of the Company’s management concerning future developments and their potential effects on us taking into account information currently available to us and are not predictions of actual performance. There can be no assurances that future developments affecting us will be those that we have anticipated. These forward-looking statements involve significant risks and uncertainties that could cause the actual results to differ materially from the expected results. Factors that may cause such differences include, but are not limited to: the demand for the Company’s services together with the possibility that the Company may be adversely affected by other economic, business, and/or competitive factors or changes in the business environment in which the Company operates; changes in consumer preferences or the market for the Company’s services; changes in applicable laws or regulations; the availability of competition for opportunities for expansion of the Company’s business; difficulties of managing growth profitably; the loss of one or more members of the Company’s management team; and other risks and uncertainties described or incorporated by reference in the Registration Statement and the Company’s reports (including all amendments to those reports) filed from time to time with the SEC, including the Company’s most recent Annual Report on Form 10-K for the year ended December 31, 2022 and the Company’s most recent Quarterly Report on Form 10-Q for the quarter ended March 31, 2023. The Company cautions that the foregoing list of factors is not exclusive. You should not place undue reliance upon any forward-looking statements, which speak only as of the date made. Should one or more of these risks or uncertainties materialize, they could cause our actual results to differ materially from the forward-looking statements. The Company does not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in its expectations or any change in events, conditions, or circumstances on which any such statement is based or otherwise, except as required by law. These forward-looking statements should not be relied upon as representing the Company’s assessments as of any date subsequent to the date of this Investor Presentation.

DISCLOSURE, CONTINUED

Use of Projections

This Investor Presentation contains financial forecasts, including with respect to estimated Revenues, Net Income, Adjusted Net Income, EBITDA, Adjusted EBITDA, Adjusted EBITDA Margin, Unlevered After-Tax Free Cash Flow, Levered After-Tax Free Cash Flow and Unlevered After-Tax Free Cash Flow Conversion. OSW's independent auditors did not audit, review, compile, or perform any procedures with respect to the projections for the purpose of their inclusion in this Investor Presentation, and accordingly, did not express an opinion or provide any other form of assurance with respect thereto for the purpose of this Investor Presentation. These projections should not be relied upon as being necessarily indicative of future results. In this Investor Presentation, certain of the above-mentioned estimated information has been repeated (subject to the qualifications presented herein), for purposes of providing comparisons with historical data. The assumptions and estimates underlying the prospective financial information are inherently uncertain and are subject to a wide variety of significant business, economic and competitive risks and uncertainties that could cause actual results to differ materially from those contained in the prospective financial information. Accordingly, there can be no assurance that the prospective results are indicative of the future performance of OSW or that actual results will not differ materially from those presented in the prospective financial information. Inclusion of the prospective financial information in this Investor Presentation should not be regarded as a representation by any person that the results contained in the prospective financial information will be achieved.

Use of Non-GAAP Financial Measures

In addition to financial information prepared in accordance with generally accepted accounting principles in the United States ("GAAP"), this Investor Presentation includes certain non-GAAP financial measures, such as EBITDA, Adjusted EBITDA, Adjusted Net Income, Unlevered After-Tax Free Cash Flow, Levered After-Tax Free Cash Flow and Unlevered After-Tax Free Cash Flow Conversion, which may not be directly comparable to similarly titled measures of other companies. OSW believes that the presentation of non-GAAP measures provides information that is useful to investors as it indicates more clearly the ability of OSW to meet capital expenditure and working capital requirements and provides an additional tool for investors to use in evaluating ongoing operating results and trends. These non-GAAP financial measures are in addition to, and not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP. There are certain limitations related to the use of these non-GAAP financial measures versus their nearest GAAP equivalents. For example, other companies may calculate non-GAAP financial measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures as tools for comparisons with other companies. Please see our most recent Form 10-K for the year ended December 31, 2022, as well as our earnings press releases reporting our financial results for the year ended December 31, 2022 and the quarter ended March 31, 2023, for further details on how we define these non-GAAP financial measures and for reconciliations of the non-GAAP financial measures to their nearest GAAP equivalents. We are not providing a quantitative reconciliation of forward-looking non-GAAP financial measures to the most directly comparable GAAP measure because we are unable to predict with reasonable certainty the ultimate outcome of certain significant items that are uncertain, depend on various factors and could be material to our results computed in accordance with GAAP.

Industry and Market Data

In this Investor Presentation, OSW relies on and refers to information and statistics regarding market shares in the sectors in which it competes and other industry data. OSW obtained this information and statistics from third-party sources believed to be reliable, including reports by market research firms. OSW has supplemented this information where necessary with information from discussions with its customers and its own internal estimates, taking into account publicly available information about other industry participants and its management's best view as to information that is not publicly available. OSW has not independently verified the accuracy or completeness of any such third-party information.

EXAMPLES OF
WORLD CLASS
FACILITIES AT SEA,
ON LAND

ONESPAWORLD

AT SEA. ON LAND.

KEY INVESTMENT HIGHLIGHTS

- 90+% outsourced spa market share on cruise ships
- 20+ consecutive years of global passenger growth¹
- Robust infrastructure and global network
- Cruise capacity and occupancy is highly visible
- New services lead to higher spend
- ~90% after-tax free cash flow to Adj. EBITDA conversion

ONESPAWORLD

AT SEA. ON LAND.

PREEMINENT LEADER

- 90+% outsourced spa market share on cruise ships
- Nearly 20x larger than nearest maritime competitor
- ~20M annual captive audience

FAVORABLE INDUSTRY DYNAMICS

- 20+ consecutive years of global passenger growth¹
- Strong population and demographic trends
- Emphasis on health, wellness and luxury lifestyles

DIFFICULT TO REPLICATE

- Robust infrastructure and global network
- Training and service model built over several decades
- Staggered contracts with cruise line partners

PREDICTABLE GROWTH

- Cruise capacity and occupancy is highly visible
- Published Cruise Ship order data
- Multi-year contracts include new ships during term

INNOVATION IN SERVICES & ENHANCED CAPABILITIES

- New services lead to higher spend
- Increased utilization from booking tools
- Expansion in offerings to appeal to a broader customer base

STRONG FCF & ASSET LIGHT

- ~90% after-tax free cash flow to Adj. EBITDA² conversion
- Asset light with minimal capex
- Cruise lines fund spa build-out and maintenance

1. Excludes COVID affected years of 2020-2022, CLIA expects 2023 to exceed 2019, with 2026 being 12% higher than 2019

2. Please see our most recent Form 10-K for the year ended December 31, 2022 for further details on how we define Adjusted EBITDA.

ONESPAWORLD OVERVIEW

Exceptional Performance in Q2 2023

- We delivered an outstanding quarter, capping off a strong first half of the year, and have increased our annual guidance for the second time this year.
- The quarter was highlighted by better-than-expected performance across key financial metrics, including a 57% increase in total revenues reaching a record \$200.5 million; a \$12.4 million increase in income from operations to a record \$13.4 million; and more than doubling adjusted EBITDA to a record \$21.6 million from the second quarter of 2022.

HIGHLIGHTS	183 SHIPS	> 90% MARKET SHARE AT SEA ¹
	54 RESORTS	
	~20x NEXT LARGEST SEA COMPETITOR	~93% UNLEVERED AFTER-TAX FREE CASH FLOW CONVERSION ²

1. Represents 2019. The Company believes, due to the impact of COVID-19 on our operations in 2020, current year data is not meaningful. As such, financial data is as of fiscal year 2019.

2. Revenue at sea only.

3. As of 12/31/2022.

CRUISE INDUSTRY HAS REBOUNDED WITH INCREASING MOMENTUM, AND 2023 IS EXPECTED TO ECLIPSE 2019 – AS OF Q2 2023:

- Passenger Cruise Days (“PCD”s) are at 102%+ of Q1 2019 levels
- Bookings ~34% are above Q2 2019 and have grown at an increasing rate
- Onboard spend per PCD up ~19% in the LTM period vs. 2019

ONESPAWORLD

AT SEA. ON LAND.

PASSENGER BOOKINGS ¹ (\$B)

ON-BOARD SPEND / PCD ²

Royal Caribbean 7/27/2023

- “We achieved record yields that were 12.9% higher in 2019. Our load factors are now back to normal. The incredible yield growth is driven by strength in pricing and onboard spend.”
- “About two-thirds of our guests booked some of their onboard activities in advance of their cruise translating into incremental spend once on board”
- “In the second quarter, the percent of guests were either new to brand or new to cruise surpassed 2019 levels by a wide margin, and we have seen post-cruise repeat booking rates nearly double 2019 levels.”
- Booking volume since our last earnings call have continued to accelerate, both for 2023 sailings and even more so for 2024.

Carnival Cruises – 6/26/2023

- “We just hit all-time highs for bookings and customer deposits. Booking volumes were 17% higher than 2019, which is multiples of our capacity growth.”
- “We are still experiencing a phenomenal wave season, which started early, gained strength and is still going strong midway through the year.”
- “Our booked position for 2024 also stands at record levels.”
- “Customer deposits grew 26% over the prior quarter and are multiples of our measured capacity growth as we strategically push out our booking lead times and pull forward more onboard spend.”
- “Our cumulative number of new-to-cruise and new-to-brand guests who sailed with us in the second quarter have already exceeded 2019’s levels.”

Norwegian Cruise Line Holdings – 8/1/2023

- We continue to believe we have outsized opportunity to grow our footprint with our newbuild pipeline representing approximately 50% capacity growth by 2028 versus 2019, a CAGR of approximately 5%.

Note: CLIA changed methodology for calculating passenger volume as of 2009, therefore consistent data for non-CLIA member cruise lines is unavailable prior to 2009. All passenger figures prior to 2009 are extrapolated by indexing CLIA-reported statistics to 2009 total of 17.8M.

UNIQUELY VISIBLE AND PREDICTABLE GROWTH

ONESPAWORLD

AT SEA. ON LAND.

Growth Strategy Built on the Following Key Drivers:

1

Capture Highly Visible New Ship Growth with Current Cruise Line Partners

Cruise capacity growth is highly visible and predictable with published global orderbooks reflecting 5+ years of growth

OneSpaWorld's ~5-year, fleet-wide contracts entitle it to operate on new ships launched during the contract term

2

Continue Launching Higher Value Services and Products

Expand higher-ticket medi-spa services to all appropriate ships within our fleet

Enhance Pain Management to include Full Recovery Technology

Curated indigenous services specific to global geographies and precise demographics

Continued R&D to always promote retail offerings specific to our environment

3

Focus on Enhancing Health and Wellness Center Productivity

Increase pre-booking and pre-payment capture rate as pre-booked appointments yield ~30% more revenue than services booked onboard

Expand targeted marketing and promotion initiatives

Utilize technology to increase utilization and enhance service mix

Extend retail beyond the ship

4

Expand Market Share By Adding New Potential Cruise Line Partners

Room to continue to grow 90%+ market share in the outsourced maritime health and wellness market as evidenced by recent new contract wins with Virgin Voyages, Oceania Cruises, Regent Seven Seas Cruises, and Celebrity Cruises

5

Selectively Expand Footprint at Destination Resorts

Focus on asset-light land-based business agreements at resort hotels

GLOBAL TRENDS TO DRIVE SECTOR GROWTH

Multiple long-term mega trends underlie a compelling outlook

Growth and expansion of onboard health and wellness centers

MULTIPLE MEGA TRENDS DRIVE POSITIVE OUTLOOK

AGING GLOBAL POPULATIONS

PERSISTENT HEALTH & WELLNESS TRENDS

MILLENNIALS AND GEN Z AROUND THE WORLD SEEKING LUXURY EXPERIENCES

LONG-TERM EXPANSION IN ASIA

ROBUST CAPACITY GROWTH IN CRUISING ACROSS GEOGRAPHIES

Global Cruise Capacity Growth: 2020 – 2027
